

## Advanced Electric Power Steering Sedan with Comfort and GPS Bluetooth Touchscreen Integration

Our Product Introduction

for more products please visit us on petrolhybridcars.com

### Basic Information

- Place of Origin: China
- Brand Name: BYD
- Model Number: Destroyer 05
- Minimum Order Quantity: 1
- Payment Terms: T/T

### Product Specification

- Powertrain: Electric
- Interior Comfort: High
- Braking System: ABS + EBD
- Interior Features: GPS, Bluetooth, Touchscreen
- Suspension Type: Independent Suspension
- Safety Features: Autopilot, Lane Departure Warning, Forward Collision Warning
- Steering System: Electric Power Steering
- Body Type: Sedan
- Highlight: **Electric Power Steering Sedan,  
GPS Bluetooth Electric Sedan,  
Touchscreen Integration Electric Sedan**

## Product Description

### Product Description:

The Model 3 has an all-wheel drive powertrain that delivers a smooth and powerful driving experience. The electric motor provides ample torque and acceleration, making it a fun and exciting car to drive. The independent suspension system ensures that the ride is comfortable, even on bumpy roads.

The BEV Battery Electric Vehicle technology that powers the Model 3 is the way of the future for the automotive industry. Unlike traditional gas-powered vehicles, the Model 3 emits no harmful emissions and produces no noise pollution. This makes it an ideal choice for drivers who are looking for a cleaner and quieter driving experience.

The electric car lithium-ion battery that powers the Model 3 is highly efficient and reliable. It provides a range of up to 263 miles on a single charge, making it perfect for long trips or daily commutes. The battery is designed to last for years, meaning that drivers can enjoy the benefits of electric car ownership without having to worry about frequent battery replacements.

The Model 3 is a great choice for drivers who are looking for an electric car that is both practical and stylish. With its sleek and modern design, the Model 3 is sure to turn heads wherever it goes. It also comes equipped with a range of advanced features, including a state-of-the-art infotainment system, advanced safety features, and more.

In summary, the Model 3 is a BEV Battery Electric Vehicle that is powered by an advanced electric car lithium-ion battery. It features an all-wheel drive powertrain, high fuel economy, independent suspension, and a range of advanced features that make it a great choice for drivers who are looking for an eco-friendly and cost-effective car.

### Features:

Product Name: BEV Battery Electric Vehicle

Motor Type: Permanent Magnet Synchronous Motor

Interior Comfort: High

Suspension Type: Independent Suspension

Warranty: 3 Years

Top Speed: 162 Mph

BESS Battery Energy Storage System

Electric Car Lithium Ion Battery

### Technical Parameters:

<b>Safety Features:</b>	Autopilot, Lane Departure Warning, Forward Collision Warning
<b>Motor Type:</b>	Permanent Magnet Synchronous Motor
<b>Powertrain:</b>	Electric
<b>Steering System:</b>	Electric Power Steering
<b>Drive Type:</b>	All-wheel Drive
<b>Warranty:</b>	3 Years
<b>Top Speed:</b>	162 Mph
<b>Interior Features:</b>	GPS, Bluetooth, Touchscreen
<b>Interior Comfort:</b>	High
<b>Body Type:</b>	Sedan

The BEV Battery Electric Vehicle product is powered by an Electric Vehicle Lithium Ion Battery and features a BESS Battery Energy Storage System.

### Applications:

The Destroyer 05 is a versatile electric car that can be used in a variety of different scenarios. It is perfect for city driving, commuting, and even long road trips. The BEV Battery Electric Vehicle is also ideal for use in industrial settings, such as warehouses and factories. This is because it is equipped with a BESS Battery Energy Storage System that provides reliable and consistent power for heavy machinery and equipment.

The BYD Destroyer 05 is also a great choice for environmentally-conscious consumers. This electric car Lithium Ion Battery produces zero emissions, making it a much cleaner alternative to traditional gas-powered vehicles. Additionally, the BEV Battery Electric Vehicle is equipped with advanced safety features, including Autopilot, Lane Departure Warning, and Forward Collision Warning. These features help to ensure that drivers and passengers are safe and secure at all times.

The BYD Destroyer 05 is a powerful and efficient electric car that is perfect for a wide range of applications. Whether you are looking for a reliable and efficient mode of transportation for your daily commute or need a heavy-duty electric vehicle for industrial use, the BEV Battery Electric Vehicle is the perfect choice. With its Rear Wheel Drive drivetrain, Independent Suspension, ABS + EBD Braking System, and Electric Power Steering, the Destroyer 05 is a high-performance electric car that is built to last.

So if you are looking for a reliable and efficient electric car Lithium Ion Battery, look no further than the BYD Destroyer 05. With a minimum order quantity of just 1 and payment terms of T/T, it is easier than ever to get your hands on this cutting-edge BEV Battery Electric Vehicle. Order yours today and experience the future of transportation!

**Packing and Shipping:**

Product Packaging:  
The BEV Battery Electric Vehicle product will be securely packaged in a large cardboard box with ample padding to protect all components during transportation. Each component will be individually wrapped and secured to prevent any damage during shipping.

Shipping:  
Shipping for the BEV Battery Electric Vehicle product will be handled by our trusted logistics partner. The product will be shipped from our warehouse within 2 business days of receiving the order. Shipping times may vary depending on the destination, but generally, it will take 5-7 business days for the product to reach the customer.
